His Honour the Speaker informed the Senate that the Honourable Mr. Turgeon had made and subscribed the Declaration of Qualification required of him by *The British North America Act, 1867*, in the presence of the Clerk of the Senate, one of the Commissioners appointed to receive and witness the same.

His Honour the Speaker informed the Senate that he had received a communication from the Governor General's Secretary, in the following words:—

OFFICE OF THE GOVERNOR GENERAL'S SECRETARY

OTTAWA, 10th January, 1923.

SIR,—I have the honour to inform you that His Excellency the Governor General will proceed to the Senate Chamber to open the Session of the Dominion Parliament on Wednesday, the 31st January, at three o'clock.

I have the honour to be,

Sir,

Your obedient servant,

A. F. SLADEN,
Governor General's Secretary.

The Honourable
The Speaker of the Senate,
Ottawa.

The Senate was adjourned during pleasure.

After a while, His Excellency the Governor General having come, and being seated on the Throne,

His Honour the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that,—It is His Excellency the Governor General's pleasure that they attend him immediately in the Senate.

Who being come, with their Speaker,

His Excellency the Governor General was pleased to open the Session by a Gracious Speech to both Houses, as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

I am glad to welcome you to a return to your parliamentary duties. In the interval which has elapsed since the last session, I have had the pleasure of extending my travels throughout Western Canada and as far as the Territory of the Yukon. The cordial hospitality everywhere enjoyed by Her Excellency and myself will be long remembered.

It is gratifying to note that in a period of world-wide trade depression following the Great War, Canada has made substantial progress towards recovery.

The increase in the volume of trade, the diminution of unemployment as compared with last winter, and the restoration of our currency to a position of equality with that of the neighbouring Republic, are indications of the improved situation. The economic condition in European countries makes for embarrassment the world over. A much better situation in Europe will be necessary before we can expect a complete restoration of confidence in business affairs here. In the meantime, the Dominion has much reason for satisfaction with the improvement that has taken place, and with the many evidences of a returning prosperity.

The desirability of obtaining the best available terms for the admission of our products in foreign markets has engaged the attention of the Ministry. Conventions have been made to govern trade relations between France and Canada and between Italy and Canada. These Conventions will be submitted for your approval.

Since last session, acting under a Statute of 1919, with amendments thereto, an Order in Council has been passed appointing a Board of Directors to be known as The Board of Directors of the Canadian National Railway Company, having under its control and operation the various lines which go to make up the system, and also the Canadian Government Merchant Marine. The various units of the system are being consolidated as rapidly as possible. This, it is expected, will increase the efficiency and decrease the cost of operation.

It having been represented that an amalgamation of interests of shipping companies and vessel owners upon the Great Lakes has operated to control freight rates and insurance upon grain shipments in a manner which has deprived agriculturists of much of the benefit to which they were entitled, as well as led to discrimination against Canadian ports and harbours, a Royal Commission has been appointed to investigate and report upon this alleged combine.

A bill will be submitted to you to safeguard the interests of consumers and producers from undue enhancement of prices or unfair restriction of trade by combines, monopolies, trusts, or mergers.

As a consequence of an agreement entered into between the Government of Great Britain and members of the Canadian Government, the law with respect to the landing of imported animals in Great Britain has been amended by the British Parliament. The removal thereby effected of the embargo on Canadian cattle entering the United Kingdom is a source of general satisfaction. It has materially improved the outlook as regards live stock, and should lead to the re-establishment of a profitable trade with Great Britain.

The adverse conditions with which agriculture generally is confronted in many parts of Canada, despite the abundant crops of the past year, render it desirable that a special committee with powers to make recommendations, be appointed to look into various agricultural matters such as the mixing of grain in private terminal elevators, the marketing of farm products, the development of the live stock industry, and the possibilities of further diversification in our Canadian agriculture.

The matter of securing an increasing flow of desirable settlers to develop the large areas still available for cultivation in Canada has had the serious consideration of my advisers. Additional advertising and general publicity campaigns have been launched in Great Britain and in the United States and, as opportunity offers, will be extended to other lands from which a suitable class of settlers may be attracted. In other particulars, the activities of the Department of Immigration and Colonization are being expanded.

The time for the usual decennial revision of the *Bank Act* having arrived, a measure for that purpose will be laid before you.

Having regard to the recent decennial census, a readjustment of the representation of the Provinces in the House of Commons, as required by the *British North America Act*, is also due. A Bill will be introduced for that purpose.

In pursuance of the announcement made in the Speech from the Throne at the opening of last Session a Postal Conference with the United States was held at Ottawa in the month of December last. The results of the Conference were embodied in a new Postal Convention which has been in force since January 1st. It is a pleasure to record that arrangements were made not only for extending and improving the international postal service, but also for the conveyance through the United States of parcel mail from Canada to all South American countries.

The Government of France has graciously offered to the Canadian Government a tract of land of 250 acres on Vimy Ridge, at the site selected for the erection by Canada of a monument commemorating the exploits of Canadian troops in the Great War. This gift has been gratefully accepted, and a bill approving the agreement has been duly introduced in the French Parliament. An appropriate resolution expressing Canada's appreciation of the action of the French Government will be offered for your acceptance.

During the course of the session your attention will be invited to other agreements of an international character and significance, and to other matters requiring legislation.

Members of the House of Commons:

The Public Accounts for the last fiscal year, and the Estimates for the coming year, will be submitted at an early date. A strict economy in all public expenditures continues to be a necessity of the existing financial situation.

Honourable Members of the Senate:

Members of the House of Commons:

Since you last assembled, Canada has harvested the largest wheat crop in its history, and an abundance of other kinds of grain and fruits. May the Divine Providence which has vouchsafed this basis of our material prosperity guide and bless all your deliberations.

His Excellency the Governor General was pleased to retire.

The Commons withdrew.

After some time the Senate was resumed.

PRAYERS.

The Honourable Mr. Dandurand presented to the Senate a Bill intituled: "An Act relating to Railways."

The said Bill was read the first time.

The Honourable the Speaker informed the Senate that a copy of the Speech of His Excellency the Governor General had been left in his hands.

The same was read by His Honour the Speaker.

Ordered, That the Speech of His Excellency the Governor General be taken into consideration to-morrow.

On motion of the Honourable Mr. Dandurand, it was

Ordered, That all the Senators present during this Session be appointed a Committee to consider the Orders and Customs of the Senate and Privileges of Parliament, and that the said Committee have leave to meet in the Senate Chamber when and as often as they please.

On motion of the Honourable Mr. Dandurand, it was

Ordered, That pursuant to Rule 77, the following Senators, to wit: The Honourable Sir James Loughheed, The Honourable Messieurs Belcourt, Barnard, Daniel, Prowse, Robertson, Tanner, Watson, Willoughby and the Mover, be appointed a Committee of Selection to nominate Senators to serve on the several Standing Committees during the present Session; and to report with all convenient speed the names of the Senators so nominated.

The Senate adjourned.

His Honour the Speaker presented to the Senate the Report of the Joint Librarians of Parliament, for the year 1922.

The same was then read by the Clerk, as follows:—

REPORT OF THE LIBRARIANS FOR 1922

To the Honourable the Speaker of the Senate:

The Joint Librarians have the honour to submit the following report for the year 1922.

A list of donations to the Library and of Copyright works will be submitted.

The Supplementary Catalogue of books purchased since the last report is in the hands of the printers, and will be laid before the Senate and the House of Commons in the immediate future.

From time to time during past years reference has been made to the congested condition of the Library, and to the impossibility of keeping up to date various more or less important departments of literature owing to lack of shelving space. Some alleviation of this condition has taken place by the excellent work undertaken by the Public Works Department in fitting up new rooms between the inner and outer walls of the Library, referred to in the last report. Most of these rooms have been fitted up with steel shelving and the work of rearrangement of books has been in progress during the recess and is practically completed. By the provision of this new space it has been possible to remove the many racks which have so long encumbered the main floor of the Library, disfiguring the beauty of the chamber, and incommoding greatly the many visitors and users of the Library. These racks were largely given up to the statutes and official Gazettes of the various provinces, Sessional papers and law reports. The alcoves were also so crowded with books that quick reference to important works was almost impossible. The Provincial Statutes, Gazettes, the Railway works, Federal laws and Imperial Hansards are now housed in separate rooms and made easy of access. The Hansards of the Canadian Parliament are in complete sets in the alcove to the right of the entrance, and the other alcove shelves have been thoroughly overhauled with a view to users' convenience. A separate room has also been fitted up with suitable shelves to contain the whole of the periodicals.

The additional room provided by the Public Works Department in the basement has made possible a complete rearrangement of the large collection of bound newspaper files which were piled up in very great confusion. Something like fifty newspapers are annually bound, many of them dating back to the middle of last century and consisting of many thousands of volumes. These have now been carefully arranged by Provinces, and provision made for some five years ahead.

While the fire of 1916 destroyed a large collection of extremely valuable English pamphlets, which were stored in the old reading room, the Library is fortunate in possessing a large and much-prized collection of Canadian pamphlets dealing with political and historical affairs. Unfortunately, these were bound year after year without a very close observance of related subjects, and during the past summer the work of card-indexing these pamphlets for convenience in research work has made steady progress and will be continued until completion.

While many new and important works in general literature have been secured during the past year, the undersigned, realizing that space is lacking, and that the Library is essentially for Parliamentary purposes, have given their efforts chiefly in the direction of supplying the desirable and necessary works on Constitutional and Parliamentary matters, sociology, political economy, finance, history, and so on. Two complete sets of the League of Nations publications have been obtained, and steps have been taken to secure a complete set of all publications by the International Bureau of Labor, and the International Court of Justice.

Amongst donations of value which have been received during the past year may be mentioned the following:

One hundred and sixty (160) volumes from the Carnegie Endowment for International Peace, besides a large number of pamphlets. These works consist of invaluable material on such important subjects as international law, international relations, the various treaties connected with the administration of peace, industrial development, commercial policies of a number of countries, American foreign policy, economic development in Russia, war administration of railways in the United States and Great Britain, and a large number of related topics, including some twenty volumes dealing with the various Hague Conventions. The authors are writers of high standing, many of them jurists of international reputation.

A number of valuable books given by the Yale University Library, dealing with political and historical affairs.

A complete set so far as it is finished up to date, of the special pamphlets issued by the Imperial War Graves Commission, descriptive of the military cemeteries throughout the world containing the graves of those soldiers in the British Empire who fell in the Great War.

All of which is respectfully submitted.

The same was then read by the Clerk, as follows:—

THE SENATE,

COMMITTEE ROOM No. 368,

THURSDAY, May 3, 1923.

The Special Committee to whom was referred the Bill E2, “An Act to amend The Dominion Lands Act respecting the sale or other disposal of coal lands and coal mining rights,” beg leave to make their first and final Report as follows:—

The Order of the Senate of the 21st March, 1923, appointing the Special Committee reads:—

“Ordered, That the Bill E2, intituled: ‘An Act to amend The Dominion Lands Act respecting the sale or other disposal of coal lands and coal mining rights,’ be referred to a Special Committee for the purpose of examining into the legal effect of the said Bill upon the title to the said coal areas, the Petition of Right now pending before the Exchequer Court and the persons substantially interested therein and the opportunity of amending the said Bill after consultation with the Department of Justice;”

Mr. Newcombe, Deputy Minister of Justice, appeared before the Committee and prepared a synopsis of the proceedings in connection with the Isenberg leases.

It would appear that D. P. R. Isenberg became possessed of the eight leases under review in August and September, 1912. The rental as to seven of these leases was duly paid up to the 15th May, 1918, and up to the 22nd June, 1918, as to the other lease.

In 1918, the rentals being overdue, a notice dated 1st August, 1918, was given by the Department of the Interior to J. R. Galt, Vice-President of the Hawaiian Trust Company, Limited, then acting for the said Isenberg, purporting to cancel the leases.

On the 27th January, 1919, leases to an area covering to a considerable extent the tract described in the leases formerly held by Isenberg were acquired by A. T. Shillington and C. E. Barnard. These leases were cancelled by Order in Council (P.C. 1369), dated 1st July, 1919, and the area therein described was reserved to the Crown.

As a result of an inquiry in the Senate in June and July, 1919, the areas comprising the Isenberg leases were by Order in Council (P.C. 2044) dated 6th October, 1919, withdrawn from disposal under the Coal Mining Regulations.

In May, 1921, the Judicial Committee of the Imperial Privy Council rendered judgment in the case of Paul A. Paulson vs. The King, as a consequence of which it was contended by the Isenberg estate that the notification of cancellation of the Isenberg leases given by the Department of the Interior, dated 1st August, 1918, to J. R. Galt, Vice-President of The Hawaiian Trust Company, Limited, was not a proper notice.

In order to validate the cancellation of approximately 20,000 mining, timber, grazing and school lands leases, including the Isenberg coal leases, about which a doubt had arisen by reason of the judgment in the Paulson case, Bill Y2, intituled: "An Act respecting Notices of Cancellation of Leases of Dominion Lands" was introduced by the Government. This Bill was passed by Parliament, received the Royal Assent on the 28th June, 1922, and became Chapter 21, of the Statutes of Canada, 12-13 George V.

During the month of March, 1922, the Isenberg estate tendered to the Department of the Interior the sum of \$4,488.92 in payment of rentals and interest due under the leases up to the time of the Notice of cancellation, dated 1st August, 1918. This the Department declined to accept.

The Committee is informed by the Department of the Interior that the sum of \$114,359.61 was paid in connection with the leases formerly standing in the name of the late Paul R. Isenberg, and that information on file in the Department would appear to indicate that additional expenditure was claimed to have been incurred in development (or otherwise) in connection with the locations of which, however, there now appears to be hardly any trace.

On the 21st and 22nd of June, 1922, a second Notice of cancellation of the Isenberg leases was served upon the Hawaiian Trust Company, Limited, and Bertha A. S. Isenberg, executors of the estate of the late D. P. R. Isenberg, he having died on the 13th April, 1919.

Two Petitions of Right have been filed with the Secretary of State on behalf of the Hawaiian Trust Company et al, dated 16th June, 1922, and 23rd June, 1922. On the 9th October, 1922, a fiat was granted on the last Petition praying that it be found and declared that the leases are still valid and subsisting leases, etc.

In the course of its investigation the Committee heard several witnesses under oath and among them William Murdoch, of Ottawa, who stated that he was consulted in August, 1919, by the Hawaiian Trust Company; that he investigated the cancellation of the leases and advised the Hawaiian Trust Company that the cancellation was illegal. He produced a memo of agreement (Exhibit 5) dated 18th July, 1922, between the Hawaiian Trust Company, Limited, and Bertha Isenberg, executors of the late D. P. R. Isenberg, and himself, reading as follows:—

"Memorandum of agreement made in triplicate this 18th day of July, A.D. 1922.

Between, the Hawaiian Trust Company, Limited, whose head office is at Honolulu, and Bertha K. Isenberg, of Honolulu aforesaid, executors of the late Daniel Paul Rice Isenberg, in his lifetime of Honolulu aforesaid, hereto acting by John R. Galt, General Manager of the said Hawaiian Trust Company, Limited, hereafter referred to as the

Party of the First Part

AND

William Murdoch, of the City of Ottawa, in the County of Carleton, Solicitor, hereinafter referred to as the

Party of the Second Part

Whereas the said Daniel Paul Rice Isenberg at the time of his death was the duly registered owner and holder of those certain leases, issued by the Department of the Interior for the Dominion of Canada, of Coal Areas situated in the Smoky River District in the Province of Alberta, in the said Dominion of Canada, which leases bear Nos. 760, 761, 762, 763, 764, 765, 766 and 782;

And whereas on the 1st day of August, 1918, the Department of the Interior for Canada issued a letter purporting to cancel the said leases as of and from the date of the said letter on the ground that the rentals due thereon had not been paid within the time fixed by the said leases;

And whereas on the 21st day of June, 1922, the said Department of the Interior for Canada caused to be served on the Party of the First Part a notice purporting to have been dated on the 7th day of April, 1922, to cancel the said leases for the reasons therein stated;

And whereas the Party of the Second Part has been acting as agent of the Party of the First Part for the purpose of having the rights of the said Isenberg under the said leases recognized, restored and maintained and for the purpose of bringing about a sale of said leases upon the understanding that in payment of his services he should receive a commission upon the proceeds of such sale;

And whereas upon consideration of present conditions it has been agreed by the parties that henceforward the Party of the Second Part instead of acting as Agent for the Party of the First Part shall be given the right to purchase and take over the said leases upon the conditions hereinafter stated,—this right to be evidenced by this agreement, giving him opportunity to negotiate a sale before making payment for said leases.

Now therefore, this agreement witnesseth that in consideration of the premises and the sum of One Dollar paid by the Party of the Second Part to the Party of the First Part and whereof quit, the parties have agreed and do hereby agree as follows:—

1. The Party of the First Part shall execute written assignments and transfers which, upon delivery, as hereinafter provided, will be sufficient to assign and transfer to the Party of the Second Part all interest which the Party of the First Part has in and to said leases of said coal mining areas Nos. 760, 761, 762, 763, 764, 765, 766 and 782 and in and to the property and benefits thereby or therein granted.

2. The Party of the First Part shall deposit said executed forms of written assignments and transfers with the Royal Bank of Canada, hereinafter referred to as the "Royal Bank," at Ottawa, in a sealed envelope upon which shall be endorsed instructions to the Royal Bank, signed by the Party of the First Part, directing the Royal Bank to hand over the said sealed envelope to the Party of the Second Part or to the Party of the First Part, as instructed by Mr. Andrew T. Thompson, K.C., of the City of Ottawa, in the county of Carleton, or in the event of his death, incapacity or absence from Ottawa, by Mr. Louis Côté, of the said City of Ottawa, Barrister-at-Law.

3. The Party of the Second Part agrees to pay and satisfy all moneys which may be found to be actually due and owing to the said Department of the Interior under the leases above described, as well as all moneys which at any time hereafter during the currency of this agreement shall be found to be due for rental thereon and to perform all the terms and conditions in said leases contained. As soon as the title of the Party of the First Part in and to the said leases has been determined either by judicial judgment, or admitted by the Crown acting by and through the said Department, the Party of the Second Part shall from time to time, and as may be required by the Party of the First Part, satisfy the latter that all rents due have been paid.

4. For a term of three years from the date hereof, unless the agreement be sooner terminated as herein provided, the Party of the Second Part shall have full and exclusive power and authority to sell the said leases at such prices as he may deem proper and reasonable,—provided, however, that said price shall not be less than Three Hundred Thousand dollars (\$300,000). During said term he shall use his best efforts to accomplish a sale of the property at as great a price as is obtainable. Upon any such sale he shall be entitled to receive delivery of the within mentioned transfers and assignments upon filing with the said Thompson or Coté as the case may be, the release referred to in paragraph eight (8) hereof, and upon providing the said Thompson or Coté, as the case may be, with evidence, satisfactory to him, as to the total price to be received from the purchaser upon such sale and upon paying to the Royal Bank for the account of the Party of the First Part the share of the proceeds of such sale to which the said Party of the First Part shall be entitled, determined in the manner provided in the following paragraph.

5. In the event of the sale of the leases as herein contemplated, the Party of the Second Part shall be entitled to be reimbursed for the amounts paid by him to the Dominion of Canada on account of the reinstatement of said leases, the payment of rental moneys (with interest at 7 per cent upon such amounts from the time of such payments) and of all costs and expenses of litigation incidental to the reinstatement of the said leases, provided, however, that the maximum amount for which he shall be reimbursed shall not exceed \$50,000 plus the annual rentals (amounting to approximately \$18,880 per year) falling due under the terms of said leases within three years from the date hereof. Of the further proceeds of said sale, after the Party of the Second Part has been reimbursed as aforesaid, the Party of the First Part shall be paid the next \$100,000 and beyond that amount, two-thirds of such proceeds up to a total sale price of \$300,000. The balance of such proceeds, up to a total sale price of Three Hundred Thousand dollars (\$300,000), shall be paid to the Party of the Second Part. If the total sale price shall exceed Three Hundred Thousand (\$300,000), two-thirds of such excess shall be paid to the Party of the First Part and one-third shall be paid to the Party of the Second Part until the total amount received by the Party of the First Part hereunder shall amount to Four Hundred Thousand dollars (\$400,000). Of any further proceeds of said sale, one-third shall be paid to the Party of the First Part, and two-thirds shall be paid to the Party of the Second Part until the total amount received by the Party of the First Part hereunder shall amount to \$1,000,000. Any further proceeds of such sale shall be paid to the Party of the Second Part.

6. If at any time prior to three years from the date hereof the Department of the Interior or other competent governmental body or the Court of final resort shall finally determine that said leases shall not be reinstated, the said Thompson or Coté, as the case may be, shall thereupon return to the Party of the First Part the assignments and transfers deposited with the Royal Bank.—and if, instead of reinstatement of the leases, it shall be determined that the Party of the First Part shall receive refund of any rentals paid or shall receive any other sums of money, the Party of the Second Part shall be paid fifteen per cent (15%) of any amount so received, and in addition, the sum of Five Thousand dollars (\$5,000) to cover costs of litigation, and the balance shall be retained by the Party of the First Part.

7. It is understood and agreed that the Party of the Second Part is fully informed as to the status of the within mentioned leases and that the assignments and transfers of the Party of the First Part shall be without covenant or warranty, expressed or implied, but shall purport simply to release any and all interest of the Party of the First Part in the said leases. It is further understood and agreed that, upon entering into this agreement, all previous agreements and arrangements between the parties are terminated, that the Party of

the First Part is not indebted to the Party of the Second Part and that henceforward the Party of the Second Part shall not be entitled to commissions or to any other payments or other compensation from the Party of the First Part.

8. The Party of the Second Part shall keep the Party of the First Part indemnified against any claim which may be made for commissions or otherwise in connection with any negotiations carried on for the sale or disposition of the said leases,—and, as a condition precedent to the delivery of said assignments and transfers of said leases, shall file with the said Thompson or Coté, as the case may be, a release of all demands signed by C. Owen James, in favour of the Party of the First Part.

9. In the event of the sale of the leases the said Andrew T. Thompson, or the said Louis Coté, as the case may be, shall determine the amounts due to the Party of the First Part in excess of Three Hundred Thousand dollars (\$300,000), and also the amounts deductible from the said Three Hundred Thousand dollars (\$300,000) (on account of amounts paid by the Party of the Second Part to the Dominion of Canada on account of the reinstatement of said leases, of all costs and expenses of litigation incidental to the reinstatement of the said leases and the payments of rental moneys).

10. The Party of the Second Part agrees with the Party of the First Part to furnish the Party of the First Part with a bond of indemnity to the amount of Ten Thousand dollars (\$10,000) in a Guarantee Company. such bond to be approved of by the said Andrew T. Thompson or the said Louis Cote, as the case may be, for the purpose of keeping the Party of the First Part harmless and indemnified against any claims, costs, loss or damages resulting from or incidental to such litigation as may be taken by the Party of the Second Part in the name of the Party of the First Part in connection with the said leases.

In witness whereof the parties hereto have hereunto set their hands and affixed their seals on the day, month and year first hereinbefore written.

On this 16th day of August, A.D. 1922, before me personally appeared Bertha K. Isenberg, to me known to be the person described in and who executed the foregoing instrument, and acknowledged that she executed the same as her free act and deed as Executor of the late Daniel Paul Isenberg.

JAMES K. LORA,
Notary Public, Fifth Judicial Circuit, Territory of Hawaii.

In addition to the foregoing, numerous other documents were produced by Mr. Murdoch, among them the following:—

(Exhibit 1). Copy of letter dated 28th October, 1921, from Murdoch to Col. J. Owen James, enclosing draft agreement of sale of the Isenberg leases which he, Murdoch, would recommend to the Executors to execute. A minimum sale price of 150,000 pounds sterling is fixed.

(Exhibit 6). Memo of agreement dated 1st November, 1922, between Murdoch and Dr. H. C. Church, of Ottawa, being an option for six months to Church to acquire for two million dollars all Murdoch's rights and privileges in the leases, etc., with the right of renewal of the option in the event of active negotiations for the sale by Church being in progress. The agreement states that it is understood between the parties that there are two actions pending in the Exchequer Court of Canada in connection with the leases.

Following an interview with the Committee on the 18th April, 1923, Mr. Newcombe, Deputy Minister of Justice, considered the agreement between the Isenberg Estate and Mr. Murdoch of the 18th July, 1922 (Exhibit 5), and also the testimony of Mr. Murdoch given before the Committee. In a letter dated 23rd April, 1923, directed to the Committee by Mr. Newcombe, he states:—

“According to the narrative of the agreement Mr. Murdoch had previously been acting as agent of the estate for the purpose of having the leases recognized or restored, and it is implied in the arrangement as concluded that Mr. Murdoch shall have the direction of the petition which was then afoot, although in the name of the estate, he assuming all costs and expenses, and to be indemnified out of the proceeds of the property if successful.

In these circumstances the arrangement under which these proceedings are being carried on offends against the law respecting maintenance and champerty. It is said that transactions of this character are specially discouraged as tending to pervert the due course of justice in civil suits; that no encouragement should be given to litigation by the introduction of parties to enforce those

rights which the persons in whom the rights are alleged to exist are not disposed to enforce; and, quoting from Sir Frederick Pollock's 9th edition of *Principles of Contract*, p. 406—"The modern cases proceed not upon the letter of the statutes or of the definitions given by early writers, but upon the real object and policy of the law, which is to repress that which Knight Bruce L. J. in *Reynell vs. Sprye*, 1 D.M.G. at pp. 680 and 686, spoke of as the traffic of merchandising in quarrels, of huckstering in litigious discord, which decent people hardly require legal knowledge to warn them from, and which makes the business and profit of 'breedbates, barretors, or counsel whom no Inn will own, and solicitors estranged from every roll.'"

"Remarkably enough, the authorities appear to be against the right of a defendant to plead a champertous agreement, illegal and void though it be, as a defence to an action maintained by the champertor to recover the claim or property for the purposes agreed; but nevertheless it is obvious that the Crown cannot very respectably continue voluntarily to be associated with the project of this action which, as it now transpires, has in view the re-establishment of the leases under the stipulations of a huckstering agreement.

"Certainly His Excellency would not have been advised to grant a fiat upon the petition if the facts disclosed by the agreement and Mr. Murdoch's testimony had been before the Department when the petition was considered, and therefore if there be power to revoke the fiat I would think this is a proper case for the exercise of the power. The *Petition of Right Act* however makes no provision, and so I venture to repeat the suggestion which I made to the Committee that it would be advisable to provide generally for such cases by apt amendment of the *Petition of Right Act*, and I submit herewith for consideration draft clauses which I have prepared to give effect to this suggestion."

The following is the draft Bill prepared by the Department of Justice, except the last clause thereof which was added by your Committee:—

An Act to amend The *Petition of Right Act*.

His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. *The Petition of Right Act*, Chapter 142 of *The Revised Statutes, 1906*, is hereby amended by adding thereto the following as section fourteen thereof:—

"14. (1) In the case of any petition of right as to which the Governor General has heretofore granted or may hereafter grant his fiat that right be done, and whether or not the petition has been or is filed in the Exchequer Court of Canada, and at any stage of the proceedings in the said court, the Governor General in Council may upon the report of the Minister of Justice withdraw and revoke his fiat, if the Minister reports that the granting of the fiat was induced by misrepresentation, concealment or non-disclosure on the part of the petitioner of any material fact which, in the Minister's opinion, should have been truly stated or disclosed for the Minister's information in the consideration of the petition.

"(2) A copy of any order in council revoking or withdrawing the Governor General's fiat upon any petition of right as aforesaid, certified by the Clerk of the Privy Council, may be filed in the Exchequer Court, and thereupon the petition shall abate, and all further proceedings in the action shall be and be deemed to have been, by the revocation or withdrawal of the fiat, perpetually stayed."

2. Nothing in this Act shall be construed or interpreted as a legislative interpretation, declaration or limitation of the prerogatives of the Crown in dealing with the issue or revocation of any fiat granted upon petition of right.

Your Committee was informed by the Minister of Justice that this Bill will be forthwith introduced as a Government measure.

The Deputy Minister of Justice has also suggested, and your Committee concurs in the suggestion, that Bill E2, "An Act to amend The Dominion Lands Act respecting the sale or other disposal of coal lands and coal mining rights," referred to the Committee on the 21st March last, be amended as follows:—

Page 1, line 4. For clause 1, substitute the following:—

(1) Section 37 of the Dominion Lands Act, Chapter 20, 7-8 Edward VII, is amended by adding thereto the following subsection:—

"(2) Notwithstanding anything contained in the Dominion Lands Act, or in any Act amending the same, lands containing coal, and the coal mining rights therein, situate or being within townships 55, 56, 57, 58 and 59, in ranges 7, 8 and 9 west of the sixth Initial Meridian in the Province of Alberta, shall not be sold, leased or otherwise disposed of in whole or in part, or as to any right, title or interest therein, except by the special authority of the Parliament of Canada to be hereafter enacted."

If, as your Committee hopes and strongly urges upon the Government, the fiat granted on October 9th, 1922, is withdrawn, and the above mentioned Petition of Right permanently stayed, the question may arise whether under the special circumstances disclosed by the records of the Department of the Interior, an indemnity should be granted to the Isenberg Estate. In the opinion of your Committee such indemnity, if deemed advisable by the Government to be paid (as to which your Committee expresses no opinion), should be paid to nobody else but the Isenberg Estate, and should not exceed one hundred thousand dollars.

In closing this report your Committee deems it proper to state that in trying to dispose of the leases in question, Mr. William Murdoch has very improperly and unwarrantedly made use of the names of Ministers of the Crown, of Departmental Officials and other persons, as was conclusively established before your Committee.

Several witnesses were examined before your Committee and their evidence is reported herewith.

All which is respectfully submitted.

F. L. BEIQUE,
Chairman.

COMMITTEE ROOM No. 262,

THURSDAY, 14th June, 1923.

The Joint Committee of both Houses of Parliament appointed to consider the following matters:—

1. The forms of Bills and the best means of affording information and assistance in the consideration thereof at all stages of legislation in both Houses of Parliament;

2. The better distribution of the work of legislation between the two Houses;

3. The practical operation of the provisions of *The Senate and House of Commons Act*, Revised Statutes of Canada, 1906, chapter ten, respecting the attendance of Senators and Members of the House of Commons, and the expediency of making any alterations in those provisions, respectfully beg leave to make their first and final Report as follows:—

Your Committee recommend:—

1. That the Rules of the Senate and House of Commons respectively be amended to provide as follows:—

(1) In the preparation of Bills amending existing enactments the amendments shall not ordinarily be made by clauses which add or leave out words or substitute words for others, but by clauses which re-enact the section, subsection or other minor division, as it is amended.

(2) In the text of the Bill, on the left hand page, new matter shall be indicated by such typographical means as may best suit the varying circumstances of each case, such as brackets, italics, underlining, asterisks, etc. Opposite each clause, on the right hand page, the enactment amended thereby, or so much thereof as is essential, shall be printed with the proposed changes to be made therein similarly indicated.

(3) When a clause repeals an existing section, subsection or other minor division of a section, that section, subsection or division, or so much thereof as is essential, shall be printed opposite the clause.

(4) A memorandum by the draftsman explaining briefly the reasons for each clause, shall be appended to the Bill, or distributed therewith. Whenever practicable the memorandum shall be printed on the right hand page of the Bill, in paragraphs opposite the clauses referred to and numbered correspondingly.

(5) The above rules shall also as far as practicable apply to the reprinting of Bills.

2. Your Committee further recommend that the distribution of all Private Bills, exclusive of Divorce Bills, be regulated by the Speakers of both Houses jointly with the understanding that they will see as far as practicable that Private Bills, exclusive of Divorce Bills, be introduced one half in each House.

3. Your Committee further recommend that legislation be introduced by the Government during the present session of Parliament to amend the Senate and House of Commons Act, Revised Statutes of Canada, 1906, chapter ten, and to provide that the sessional allowance of Members of the Senate and House of Commons be paid to every Member of either House who attends a session of Parliament extending over a period of fifty days or more; that a Member shall not be entitled to the sessional allowance for less than fifty days' attendance but that his allowance for any less number of days shall be twenty-five dollars per day; that the said allowance may be paid on the last day of each month to the extent of twenty dollars per day for each day's attendance; that a deduction at the rate of twenty-five dollars per day shall be made from such sessional allowance for every day beyond fifteen on which the Member does not attend the sitting of the House, if the House sits on that day; that each day during the session on which there has been no sitting of such House in consequence of its having adjourned over such day, shall be reckoned as a day of attendance at such session for the purpose of the indemnity, and that such amendments with the exception of that concerning the payment of the indemnity on the last day of each month at the rate of twenty dollars per day, be made to apply to the present session of Parliament.

In addition to the examination of witnesses, your Committee has through correspondence ascertained the views of various authorities with respect to the problems involved in the inquiry, and the essential parts of such correspondence will be found in the published reports of our proceedings.

Your Committee has endeavoured to avoid covering ground inquired into by the Mines and Minerals Committee of the House of Commons dealing with the same subject.

In the Report your Committee has endeavoured to set forth briefly and concisely the various phases of the problem inquired into and its suggestion or recommendation in each case.

For the purpose of convenience Appendix "A" sets forth, with an index, the evidence of witnesses examined and correspondence.

COAL RESOURCES

There is an abundance of evidence to the effect that the coal areas of Canada, east and west, are sufficient to supply the fuel needs of our entire population for an indefinite period of time. In other words there is no shortage of coal in Canada, neither is there a lack of developed mines. A large percentage of the collieries now in operation—more particularly those in Western Canada—are capable of increasing their output to a very considerable extent with little or no capital cost, and would undoubtedly do so if markets for their increased output were available. In the coal fields of the east, the situation is somewhat different. Many of the mines of that area would not be able to increase production to any material extent without the expenditure of very large sums of money on capital account.

Representations were made to your Committee regarding the advisability of opening up further coal areas in Western Canada through the building of branch railways. Your Committee is agreed that every such proposition should be most carefully scrutinized before public funds are used or pledged for this purpose. To this general finding there may be one exception. Evidence was submitted to the effect that there exists in northern Alberta and British Columbia extensive fields of anthracite or semi-anthracite coal of a high grade capable of easy development and within reasonable reach of a projected railway from the Peace River District to the main trunk line of the National Railway System to the south. The building of this railway will likely be necessary in the not distant future for the purpose of (a) providing a western outlet for the agricultural produce of Northern Alberta, and (b) tapping a coal field that will supply the Pacific Coast as well as the four western provinces with a grade of coal much superior to that now available.

Your Committee suggests that such intensive exploration of these fields as will remove any doubt as to the quality of the coal and its extent be carried out, before these fields are made a factor in such railway extension. The development of these coal areas should not be undertaken until there is an assured market for their output.

OUR REAL FUEL PROBLEM

With our super-abundance of coal resources, and with a sufficient number of mines in operation to supply all needs, the question at once arises as to why Canada should have any fuel problem at all. Our public requirements are of a twofold nature: Anthracite coal which is in general favour for domestic purposes; and bituminous coal which is required for power purposes and steam heating. The existing collieries east and west when working normally readily supply the Maritime Provinces and Quebec as far west as Montreal or close thereto, and the four western provinces as far east as Winnipeg, with bituminous coal. Under conditions now existing central Canada from Montreal to the head

of the Great Lakes is very largely if not entirely dependent upon the United States for its coal supplies of both classes. The reason for this is apparent. The coal areas in the United States from which central Canada draws its supplies, are so near to the Canadian market that hitherto it has been found commercially impossible for operators in our eastern and western fields to successfully compete with United States importations.

Within the past few years there has been a growing public sentiment to the effect that it would be in the national interest to reduce our coal importations to the minimum and within recent months the coal operators and transportation interests of Canada with that end in view have been giving a good deal of consideration to (a) the question of reducing freight rates, (b) the desirability of providing further and better facilities for handling and storing coal, and (c) the necessity of educating the public to use Canadian coal and emphasizing the advantage of securing their supplies at those seasons of the year when railway and vessel facilities are available and the mines are capable of supplying requirements. In this connection your Committee recommend that the Dominion Fuel Board be empowered to co-operate with the various transportation and other interests involved for the purpose of ascertaining what may be accomplished in a practical way along the lines indicated.

In a recent communication received from the President of the Canadian National Railways, the offer is made to transport Alberta coal by train loads to Ontario points during the months of May, June and July, at the rate of \$9.00 per ton, and that like treatment or its equivalent would be offered the coal operators of the Maritime fields. In so far as western coal is concerned officials of the Canadian Pacific Railway Company gave evidence to the effect that the \$9.00 per ton rate quoted was less than the actual cost of transportation, and that Alberta coal could not be landed in central or southern Ontario at a lower rate than (approximately) \$12.40 per ton, if the company was to move coal on the same freight basis as grain.

Without expressing a final opinion as to the possibility of supplying central Canada with bituminous coal when hauled by rail from east or west your Committee is strongly inclined to the view that the geographical location of the mine areas from which central Canada draws its supplies is such that it is extremely doubtful if this handicap can be overcome unless the railway companies are prepared to transport coal at less than cost.

It was admitted in evidence by representatives of the Alberta Government that the high cost of transportation in competition with traffic from the United States precludes the possibility of a market in central Canada for western bituminous coal such as is used for power plants and steam heating purposes. On the other hand it was contended that with a freight rate such as suggested of \$9.00 per ton, there was the possibility of supplying a comparatively large portion of central Canada's needs with a high grade of what is commonly called "Domestic" coal. Your Committee is of the view that there is a reasonable prospect of the cost of production being reduced if the output is increased and mining operations are spread over all months of the year.

As regards Nova Scotia coal your Committee are of the opinion that central Canada in the future may be able to secure a much larger share of its requirements of bituminous coal from that source provided navigation, storage, handling and shipping facilities west of Montreal are improved.

Your Committee is impressed with the necessity of having this phase of our fuel problem more thoroughly investigated and recommends that the Dominion Fuel Board should continue its investigations along this line.

FUEL FAMINES

In the past practically all parts of Canada have occasionally had their fuel famines, due to one or other of the following causes,—(a) the shutting down of

collieries in Canada or the United States by reason of strikes or lock outs, (b) the lack of transportation at critical periods of the year by reason of strikes, (c) the periodic lack of transportation owing to severe weather conditions, (d) the failure of the general public to secure their winter supply of coal in ample time to avoid the results of the three other conditions previously referred to.

While it has no suggestions to offer as regards strikes, etc., your Committee is convinced that any measures that may be devised by legislation or otherwise to prevent the periodic closing down of mines will to a considerable extent put an end to the coal famines in the future. For long years to come the coal resources in sight both in Canada and the United States are amply sufficient to supply all needs provided nothing intervenes to prevent the mines from producing their normal output and transportation facilities are available to carry supplies to the consumer.

ANTHRACITE VS. BITUMINOUS COAL

The populations of eastern and western Canada have been accustomed to use bituminous and so-called Domestic coals, and all their industrial household, and other arrangements including power plants, furnaces, ranges, grates and storage have been governed accordingly. But not so in central Canada. The public in this region, more particularly for domestic purposes, have until the past few years been provided with ample supplies of anthracite coal from the United States fields and as a result they do not feel at all inclined to use any other variety. For this they cannot be blamed as there is no doubt that for domestic purposes anthracite coal is superior for reasons which are obvious.

From the evidence submitted to your Committee it would appear that the sources of supply of anthracite coal in the United States are not unlimited, and that within a reasonable distance of time, the demand will exceed the supply. On the other hand evidence was adduced to the effect that the bituminous coal fields of the United States are capable of supplying all the fuel needs of central Canada for a great many years. The inference to be drawn is that under normal conditions as to the working of bituminous collieries in the United States, the public of central Canada need never fear a coal famine provided they are prepared, as they should be, at any and all times to use bituminous instead of anthracite coal. To a certain extent anthracite coal may be regarded as a luxury, and the sooner the consuming public realize this fact, the less danger there will be of being haunted by the nightmare of a coal famine.

Your Committee gave some consideration to the suggestion of the possibility in the not distant future of an embargo being placed on coal entering Canada from the United States. Your Committee from the evidence placed before it is convinced that this is not at all likely except to a limited extent during emergency periods when the coal supplies of the United States are materially reduced owing to the shutting down of mines or lack of transportation. For many years central Canada owing to its climate has afforded an excellent and steady market for United States producers. It is probable that these producers as well as the transportation interests involved would strenuously oppose any effort made either to cut off this market or have it supplied from other coal fields in Canada or elsewhere.

ANTHRACITE COAL FROM GREAT BRITAIN

During the recent emergency period considerable anthracite coal was imported from Wales and Scotland and is still being brought in. The Fuel Controller of Ontario gave evidence to the effect that this coal is of the highest quality and is worth at least \$3.00 per ton more than the ordinary grades of

United States anthracite. To the extent that this British coal is imported, our dependence on United States anthracite is lessened, and ocean tonnage for our exports is increased.

THE NATIONAL ECONOMIC PROBLEM

As regards the duty of the State as represented by Federal, Provincial and Municipal Governments, your Committee has no hesitation in recommending that every possible effort should be made by those in authority to encourage the public to obtain their supplies of coal or other fuel from Canadian sources. The fact that we imported for consumption last year 13,017,025 tons of coal at an approximate cost of \$61,112,428 from the United States and other countries should impress everybody with the necessity of utilizing our own fuel resources to the fullest extent.

Your Committee is convinced that the general national interest demands further and continuous study of the problem from this angle if substantial practical results are to be attained and we recommend that the Dominion Fuel Board be given the fullest powers, with sufficient funds, to vigorously prosecute its investigations in the direction indicated. It is further suggested that during the next two or three sessions of Parliament a Joint Committee of the two Houses be appointed early in each session to inquire further into the subject.

PUBLICITY

We recommend that the Dominion Fuel Board be placed in a position to bring before the public the facts about grades and kinds of fuel, economies in methods of firing, etc., and secure for this information the widest dissemination even if such publicity has, to some extent, to be paid for.

PROVINCIAL FUEL COMMISSIONS

We further suggest to the Provincial Governments, in view of the excellent results of their Fuel Commissions, that these Governments continue those organizations which have proved their value.

FUEL ECONOMIES, COAL SUBSTITUTES, ETC.

Much of the time of your Committee was engaged in inquiring into problems relating to fuel economies, coal substitutes, water power developments, and the use of electricity and other kindred subjects, for the purpose if possible of ascertaining practical means whereby our enormous coal importations might be reduced. While we feel that our inquiry has resulted in some progress being made, we are convinced that the problems involved are such as to require further careful study by experts. In this report it is proposed to indicate but briefly our views regarding some of these questions and to suggest in a general way the scope and character of the investigations to be carried on.

(1) *Fuel Economies*.—From the evidence adduced it would appear there is an appalling waste in the consumption of coal by domestic users due to improper firing and care of furnaces, dirty stove pipes, faulty chimneys, lost radiation and other like causes. There is no doubt that many thousands of tons of coal would be saved if householders were properly instructed in this regard. Your Committee recommends that the Dominion Fuel Board should be authorized to study this phase of our fuel problem, and that their suggestions and recommendations should be transmitted to every provincial government with a view to having the local authorities carry on a campaign of education respecting the means to be adopted in every household to save fuel.

(2) *Manufacture and use of Peat*.—An examination of the evidence relating to peat will show that the Dominion possesses peat bogs of great potential

value. This is particularly true of the bogs located in central Canada, owing to the absence of coal beds in this area. There can be no doubt as to the desirability of producing peat fuel from these bogs to the fullest extent possible.

Within the past five years the Dominion and Ontario Governments have expended no less than \$310,000 in an effort to produce commercial peat at Alfred in the Ottawa valley. While there may be some doubt as to the results achieved your Committee is of the opinion that the moneys expended were justified, and that the Governments interested should consider the advisability of making still further efforts to more fully demonstrate the feasibility or non-feasibility of producing a suitable peat fuel for domestic or industrial purposes, which will compete successfully with other fuels now in use.

(3) *Central Heating Plants.*—From the brief but interesting evidence submitted, your Committee is of the opinion that the possibility of installing and operating central heating plants in urban communities for the purpose of reducing coal consumption is deserving of the most careful study and inquiry by competent experts. In Brandon, Manitoba, and North Battleford, Saskatchewan, plants of this character have been in operation successfully for a number of years, and your Committee is of the view that a very great saving in fuel is possible if it can be demonstrated that central heating plants for both residential and business sections of our large towns and cities are practical and economical. The necessary investigation along this line is now being arranged for by the Dominion Fuel Board.

(4) *Coke.*—Your Committee made an exhaustive examination of this phase of our fuel problem. We found that coke made as a by-product of gas finds a ready sale. We also found that plants in which a harder coke with higher heating value, which produced gas and other by-products were in successful operation in several cities in the United States. As this process materially reduces waste in the utilization of bituminous coal, and as every ton of such coke when made from Canadian coal, lessens our dependence on anthracite, we are hopeful that this process will be utilized in Canada. We approve of the action of the Dominion Fuel Board in having a survey made of the possibilities in our principal Canadian cities. The suggestion was made to your Committee that the Federal Government should subsidize coke producing plants to the extent of fifty cents per ton for every ton of Canadian coal used in producing coke; but your Committee has no recommendation to make in that regard as it involves a question of national policy that should be determined by the Government itself.

There is, however, another phase of the question worthy of early consideration and decision. Under the existing tariff coke is admitted to Canada free of duty. On the other hand coal imported into Canada and used for the production of gas and coke is subject to a duty of 53 cents per ton. While your Committee fully realize that all tariff questions have a good many angles that must be carefully scrutinized before any decision is reached, we cannot help but feel that an anomaly exists in this respect.

(5) *Water Power Development.*—Within recent years the development of water powers throughout Canada and more particularly in Quebec and Ontario has resulted in an enormous saving of coal. Had it not been for the development of these powers the fuel situation would undoubtedly have been far more acute. What is true of the past may be equally true of the future. In other words, your Committee strongly recommends that every legitimate encouragement should be given to the further development of water powers throughout Canada. Lately there has been a great deal of discussion respecting the advisability of proceeding with the development of the such powers on the St. Lawrence River. From the evidence placed before your Committee it would appear that if this work is proceeded with as an international undertaking there would be

available for Canadian consumption approximately 3,000,000 horse power per annum, which is equivalent to 30,000,000 tons of coal. Owing to the existing financial situation, your Committee hesitates to suggest the early development of these powers, but it recommends that the Government through its expert officers should continue to keep in touch with the whole situation, with a view to determining the time when the work should be undertaken to improve navigation, to supply power for industrial purposes and to provide electricity for farms, lighting and household uses.

(6) *Electricity for Heating Purposes.*—Within certain limitations electrical energy developed from water power may be utilized for domestic heating purposes, and your Committee are of the view that advantage should be taken of this whenever feasible. In all areas where water power has been developed in excess of industrial requirements, the evidence submitted indicates the advisability of using such excess power for the production of electricity for household heating. Your Committee had not an opportunity to prosecute its inquiries into this phase of our fuel problem as fully as is desirable, and it therefore suggests that the Dominion Fuel Board should give the matter further and fuller consideration.

(7) *Local Distribution of Coal.*—Your Committee is convinced that a material saving in the cost of coal to the consumer can be effected if steps are taken in large urban communities to regulate and provide better facilities for the storage, handling and distribution of coal. This phase of the question involves (a) the stock of coal to be kept on hand, (b) the location of coal yards, (c) the type of warehouses or sheds to be adopted, (d) the methods of delivery to be used, and (e) the zones within which coal should be distributed. Your Committee recommend that the Dominion Fuel Board should make a study of the conditions now existing in this regard in two of the larger cities with a view to reaching general conclusions as to the principles that should govern in an attempt to effect economies in these directions. Such conclusions should be transmitted to the municipal authorities throughout Canada with the suggestion that an effort be made to improve local conditions in this respect.

In conclusion your Committee desire to point out that many of the problems involved in the question of fuel supply are of such a highly complicated and technical character as to require the employment of competent experts to carry on the necessary research work if practical results are to be attained in the near future. Your Committee has been favourably impressed with the character and scope of the work already undertaken by the Dominion Fuel Board, and unhesitatingly recommends not only that the Board be continued, but that it be supplied with sufficient funds to energetically prosecute its work.

We are of opinion that the Board would be assisted in carrying on their work if they consulted men of large business and industrial affairs as to the practical working out of their suggestions.

We extend to all witnesses and correspondents our thanks for the assistance given us in our endeavours to carry out the purposes for which the Committee was appointed.

Your Committee recommend that three thousand copies of the report, with appendix, be printed for general distribution, and that Rule 100 be suspended in so far as it relates to the said printing.

All which is respectfully submitted.

Appeal from Conviction on Indictment

"1012. In this section and in the sixteen next following sections of this Act, unless the context otherwise requires,—

- (a) "appellant" includes a person who has been convicted on indictment and desires to appeal under section 1013 of this Act;
- (b) "court of appeal" means the court designated by paragraph (7) of section two of this Act as the court of appeal for the province in which the conviction on indictment was had;
- (c) "indictment" includes any information, complaint or charge whereon a person has been tried under the provisions of Part XVI or Part XVIII of this Act and convicted of an indictable offence;
- (d) "registrar" means the registrar, clerk or other chief officer of the court of appeal;
- (e) "sentence" includes any order of the trial court made on conviction with reference to the person convicted or his wife or children; and the power of the court of appeal to pass a sentence includes a power to make any such order of the court of appeal;
- (f) "trial court" means the court before which the appellant was tried and convicted, and includes a "magistrate" acting under Part XVI and a "judge" acting under Part XVIII.

"1013. (1) A person convicted on indictment may appeal to the court of appeal against his conviction—

- (a) on any ground of appeal which involves a question of law alone; and
- (b) with leave of the court of appeal, or upon the certificate of the trial court that it is a fit case for appeal, on any ground of appeal which involves a question of fact alone or a question of mixed law and fact; and
- (c) with leave of the court of appeal, on any other ground which appears to the court of appeal to be a sufficient ground of appeal.

(2) A person convicted on indictment, or the Attorney General, or the counsel for the Crown at the trial, may with leave of a judge of the court of appeal, appeal to that court against the sentence passed by the trial court, unless that sentence is one fixed by law.

(3) No proceeding in error shall be taken in any criminal case, and the powers and practice now existing in the court of criminal appeal for any province, in respect of motions for or the granting of new trials of persons convicted on indictment are hereby abolished.

(4) The determination of any question before the court of appeal shall be according to the opinion of the majority of the members of that court hearing the case.

(5) Unless the court of appeal directs to the contrary in cases where, in the opinion of that court, the question is a question of law on which it would be convenient that separate judgments should be pronounced by the members of the court, the judgment of the court shall be pronounced by the president of the court or such other member of the court hearing the case as the president of the court directs, and no judgment with respect to the determination of any question shall be separately pronounced by any other member of the court.

"1014. (1) On the hearing of any such appeal against conviction the court of appeal shall allow the appeal if it is of opinion—

- (a) that the verdict of the jury should be set aside on the ground that it is unreasonable or cannot be supported having regard to the evidence, or
- (b) that the judgment of the trial court should be set aside on the ground of a wrong decision of any question of law; or
- (c) that on any ground there was a miscarriage of justice; and
- (d) in any other case shall dismiss the appeal.

(2) The court may also dismiss the appeal if, notwithstanding that it is of opinion that on any of the grounds above mentioned the appeal might be decided in favour of the appellant, it is also of opinion that no substantial wrong or miscarriage of justice has actually occurred.

(3) Subject to the special provisions contained in the following sections of this Part, when the court of appeal allows an appeal against conviction it may—

(a) quash the conviction and direct a judgment and verdict of acquittal to be entered; or

(b) direct a new trial;

and in either case may make such other order as justice requires.

(4) When the court of appeal directs a new trial in the case of an appellant convicted, under the provisions of Part XVI or Part XVIII of this Act, of an indictable offence, if his consent or election was necessary to give jurisdiction to the magistrate or judge before whom he was tried, the new trial shall be before a jury if the appellant so requests in his notice of appeal or notice of application for leave to appeal, but otherwise shall, in the discretion of the court of appeal, be either before the proper magistrate or judge or before a jury.

“1015. (1) On an appeal against sentence, unless the sentence is one fixed by law, the court of appeal shall consider the fitness of the sentence appealed against, and may upon such evidence, if any, as it thinks fit to require or to receive—

(a) refuse to alter that sentence; or

(b) diminish or increase the punishment imposed by that sentence, but always so that the diminution or increase be within the limits of the punishment prescribed by law for the offence of which the offender has been convicted; or

(c) otherwise, but within such limits, modify the punishment imposed by that sentence; and

(d) in any other case shall dismiss the appeal.

(2) A judgment whereby the court of appeal so diminishes, increases or modifies the punishment of an offender shall have the same force and effect as if it were a sentence passed by the trial court.

“1016. ((1) If it appears to the court of appeal that an applicant, though not properly convicted on some count or part of the indictment, has been properly convicted on some other count or part of the indictment, the court may either affirm the sentence passed on the appellant by the trial court or pass such sentence in substitution therefor as the court thinks proper, and as may be warranted in law by the verdict on the count or part of the indictment on which the court considers that the appellant has been properly convicted.

(2) Where an appellant has been convicted of an offence and the jury or, as the case may be, the judge or magistrate, could on the indictment have found him guilty of some other offence, and on the actual finding it appears to the court of appeal that the jury, judge or magistrate must have been satisfied of facts which proved him guilty of that other offence, the court of appeal may, instead of allowing or dismissing the appeal, substitute for the verdict found a verdict of guilty of that other offence, and pass such sentence in substitution for the sentence passed by the trial court as may be warranted in law for that other offence, not being a sentence of greater severity.

(3) Where on the conviction of the appellant the jury have found a special verdict, and the court of appeal considers that a wrong conclusion has been arrived at by the trial court as to the effect of that verdict, the court of appeal may, instead of allowing the appeal, order such conclusion to be recorded as appears to the court to be in law required by the verdict, and pass such sentence in substitution for the sentence passed by the trial court as may be warranted in law.

(4) If on any appeal it appears to the court of appeal that, although the appellant was guilty of the act or omission charged against him, he was insane at the time the act was done or omission made so as not to be responsible according to law for his actions, the court may quash the sentence passed by the trial court and order the appellant to be kept in strict custody, in such place and such manner as to the court of appeal seems fit, until the pleasure of the lieutenant-governor of the province is known.

"1017. (1) The operation of any order for the restitution of any property to any person made on a conviction on indictment, and the operation in case of any such conviction, of the provisions of sections 795, 1048, 1049 and 1050 of this Act, shall (unless the trial court has directed to the contrary in any case in which, in its opinion, the title to the property is not in dispute) be suspended—

(a) in any case until the expiration of such time after the date of the conviction as may be directed by rules of court for giving notice of appeal or of application for leave to appeal; and

(b) in cases where such notice has been given within the time so directed, the determination of the appeal;

and in cases where the operation of any such order, or the operation of the said provisions, is suspended until the determination of the appeal, the order or provisions, as the case may be, shall not take effect as to the property in question if the conviction is quashed on appeal. Provision may be made by rules of court for securing the safe custody of any property, pending the suspension of the operation of any such order or of the said provisions.

(2) The court of appeal may by order annul or vary any order made by the trial court for the restitution of any property to any person, although the conviction is not quashed; and the order, if annulled, shall not take effect, and, if varied, shall take effect as so varied.

Procedure on Appeals against Conviction or Sentence.

"1018. (1) Where a person convicted on indictment desires to appeal to the court of appeal, or to obtain the leave of that court to appeal, he shall give notice of appeal, or notice of his application for leave to appeal, in such manner and within such time after the date of his conviction, as may be directed by rules of court. Such rules shall enable any convicted person to present his case and his argument in writing instead of by oral argument if he so desires. Any case or argument so presented shall be considered by the court.

(2) Except in the case of a conviction involving sentence of death, the time, within which notice of appeal or notice of an application for leave to appeal may be given, may be extended at any time by the court of appeal or by any judge of that court.

(3) In the case of a conviction involving sentence of death or whipping—

(a) the sentence shall not in any case be executed until after the expiration of the time within which notice of appeal or of an application for leave to appeal may be given under this section; and

(b) if notice is so given, the appeal or application shall be heard and determined with as much expedition as practicable, and the sentence shall not be executed until after the determination of the appeal, or, in cases where an application for leave to appeal is finally refused, of the application.

(4) The production of a certificate from the registrar that notice of appeal or of application for leave to appeal has been duly given, or the production of a certificate from the Minister of Justice that he has directed a new trial, shall be a sufficient warrant to suspend the execution of any sentence of death or whipping.

(5) In the case of a conviction not involving sentence of death or whipping the sentence of the trial court shall not be suspended by reason of any notice of appeal or of application for leave to appeal, whether against conviction or against sentence, unless the court of appeal or a judge of the court of appeal expressly so directs.

“ 1019. (1) The chief justice or the acting chief justice of the court of appeal or a judge of that court to be designated by him, may if it seems fit, on the application of an appellant, admit the appellant to bail pending the determination of his appeal.

(2) The time during which an appellant, pending the determination of his appeal, is admitted to bail, and, subject to any directions which the court of appeal may give to the contrary on any appeal, the time during which the appellant, if in custody, is specially treated as an appellant under the rules of any prison in which he is confined, shall not count as part of any term of imprisonment under his sentence; and, in the case of an appeal under this Part any imprisonment under the sentence of the appellant, whether it is the sentence passed by the trial court or the sentence passed by the court of appeal, shall, subject to any directions which may be given by the court of appeal as aforesaid, be deemed to be resumed or to begin to run, as the case requires, if the appellant is in custody, as from the day on which the appeal is determined, and, if he is not in custody, as from the day on which he is received into prison under the sentence.

“ 1020. (1) The judge or magistrate before whom a person has been tried on indictment shall, in the case of appeal under this Part against the conviction or against the sentence, or in the case of an application for leave to appeal under this Part, furnish to the court of appeal, in accordance with rules of court, his notes of the trial; and shall also furnish to the court of appeal in accordance with rules of court, a report giving his opinion upon the case or upon any point arising in the case.

(2) In all cases where notes of the evidence or any part thereof have been made at the trial a copy, or in the case of shorthand notes a transcript, of such notes shall be made and furnished to the court of appeal.

(3) A copy or transcript, as the case may be, of such notes shall be furnished to any party interested upon payment of such charge, if any, as may be fixed by rules of court.

(4) The Minister of Justice may, if he thinks fit in any case, direct that a copy of the judge's or magistrate's notes, or a copy or transcript of the notes of the evidence shall be furnished to him.

(5) Rules of court may make such provision as is necessary for securing the accuracy of the notes to be taken and for the verification of any transcript thereof.

“ 1021. (1) For the purposes of an appeal under this Part, the court of appeal may if it thinks it necessary or expedient in the interest of justice—

(a) order the production of any document, exhibit, or other thing connected with the proceedings, the production of which appears to it necessary for the determination of the case; and

(b) if it thinks fit, order any witnesses who would have been compellable witnesses at the trial to attend and be examined before the court of appeal, whether they were or were not called at the trial, or order the examination of any such witnesses to be conducted in manner provided by rules of court before any judge of the court of appeal, or before any officer of the court of appeal or justice of the peace or other person appointed by the court of appeal for the purpose, and allow the admission of any deposition so taken as evidence before the court of appeal; and

- (c) if it thinks fit, receive the evidence, if tendered, of any witness (including the appellant) who is a competent but not compellable witness, and, if the appellant makes an application for the purpose, of the husband or wife of the appellant, in cases where the evidence of the husband or wife could not have been given at the trial except on such an application; and
- (d) where any question arising on the appeal involves prolonged examination of documents or accounts, or any scientific or local investigation, which cannot in the opinion of the court of appeal conveniently be conducted before the court of appeal, order the reference of the question, in manner provided by rules of court, for inquiry and report to a special commissioner appointed by the court of appeal, and act upon the report of any such commissioner so far as the court of appeal thinks fit to adopt it; and
- (e) appoint any person with special expert knowledge to act as assessor to the court of appeal in any case where it appears to the court of appeal that such special knowledge is required for the proper determination of the case;

and exercise in relation to the proceedings of the court of appeal any other powers which may for the time being be exercised by the court of appeal on appeals in civil matters, and issue any warrants necessary for enforcing the orders or sentences of the court of appeals.

(2) Any documents, exhibits, or other things connected with the proceedings on the trial of any person on indictment, who, if convicted, is entitled or may be authorized to appeal under this Part, shall be kept in the custody of the trial court in accordance with rules of the court of appeal made for the purpose, for such time as may be provided by the rules, and subject to such power as may be given by the rules for the conditional release of any such documents, exhibits, or other things from that custody.

(3) Provision shall be made by rules of court for furnishing to the attorney-general and to the counsel who acted for the Crown at the trial of certified copies of such documents, exhibits, and other things connected with the proceedings as they may require for the purposes of their duties in respect to appeals and applications for leave to appeal.

“1021A (1) The court of appeal, or any judge of that court, may at any time assign to an appellant a solicitor and counsel, or counsel only, in any appeal or proceeding preliminary or incidental to an appeal in which, in the opinion of that court or judge, it appears desirable in the interests of justice that the appellant should have legal aid, and that he has not sufficient means to enable him to obtain that aid.

(2) The registrar shall report to the court of appeal or some judge thereof any case in which it appears to him that, although no application has been made for the purpose, a solicitor and counsel, or counsel only, ought to be assigned to an appellant under the powers given to the court of appeal by this Act.

(3) An appellant, notwithstanding that he is in custody, shall be entitled to be present, if he desires it, on the hearing of his appeal, except where the appeal is on some ground involving a question of law alone, but, in that case and on an application for leave to appeal and on any proceedings preliminary or incidental to an appeal, shall not be entitled to be present, except where rules of court provide that he shall have the right to be present, or where the court of appeal or a judge of that court gives him leave to be present.

(4) The power of the court of appeal to pass any sentence under section 1015 of this Act may be exercised notwithstanding that the appellant is for any reason not present.

(5) On the hearing and determination of an appeal or any proceedings preliminary or incidental thereto, under this Part, no costs shall be allowed on either side.

"1021B. (1) The registrar shall take all necessary steps for obtaining a hearing of any appeal or application, notice of which is given to him under section 1018 of this Act, and shall obtain and lay before the court of appeal in proper form all documents, exhibits, and other things relating to the proceedings in the trial court which appear necessary for the proper determination of an appeal or application.

(2) If it appears to the registrar that any notice of an appeal against a conviction, purporting to be on a ground of appeal which involves a question of law alone, does not show any substantial ground of appeal, the registrar may refer the appeal to the court of appeal for summary determination, and, where the case is so referred, the court of appeal may, if it considers that the appeal is frivolous or vexatious, and can be determined without adjourning the same for a full hearing, dismiss the appeal summarily, without calling on any persons to attend the hearing or to appear for the Crown thereon.

(3) Rules of court may be made to provide for furnishing the necessary forms and instructions in relation to notices of appeal or notices of application under section 1018 of this Act, to any person who demands the same, and to the registrar, clerk, or other chief officer of every provincial court having jurisdiction to try indictable offences, to magistrates having such jurisdiction, to sheriffs, to the warden of the penitentiary for the province, to gaolers or keepers of prisons within the province, and to such other officers or persons as may be designated by such rules of court. Every such warden, gaoler or keeper of a prison shall cause those forms and instructions to be placed at the disposal of prisoners desiring to appeal or to make any application under section 1018 of this Act, and shall cause any such notice given by a prisoner in his custody to be forwarded on behalf of the prisoner to the registrar.

"1021C. (1) In addition to the powers for making rules of court conferred upon every superior court of criminal jurisdiction by section 576 of this Act, the court of appeal shall have power to make rules of court, not inconsistent with any statute of Canada or of any province of Canada, for the purposes of carrying out the provisions of this Part relating to appeals from convictions on indictment.

(2) Rules so made may make provision for the practice and procedure upon such appeals and upon all matters arising out of, resulting from or incidental to such appeals.

(3) In so far as rules so made affect the warden, keeper or other officers of any prison, or any officer having the custody of a person convicted on indictment, the rules shall, in the case of prisons under the administration and control of the Minister of Justice, be subject to the approval of the Minister of Justice, and in the case of provincial prisons shall be subject to the approval of the Lieutenant-Governor in Council of the province.

(4) Copies of all rules made under the authority of this section shall be laid before both Houses of Parliament at the session next after the making, or making and approval thereof, and shall also be published in *The Canada Gazette*. If an address is presented to the Governor in Council by either House of Parliament, within the next subsequent thirty days on which that House has sat next after any such rule is laid before it, praying that the rule may be annulled, the Governor in Council may annul the rule, which shall thenceforth be void, but without prejudice to the validity of anything previously done thereunder.

(5) The Governor in Council may make such provision as he deems fit for securing uniformity in rules made under the authority of this section by the several courts of appeal in the provinces.

Prerogative of Mercy.

"1022. (1) Nothing in the thirteen next preceding sections of this Act shall in any manner limit or affect His Majesty's royal prerogative of mercy.

(2) Upon any application for the mercy of the Crown on behalf of any person convicted on indictment, the Minister of Justice—

- (a) if he entertains a doubt whether such person ought to have been convicted, may, after such inquiry as he thinks proper, instead of advising His Majesty to remit or to commute the sentence, direct by an order in writing a new trial at such time and before such court as the Minister of Justice thinks proper; or
- (b) may, at any time, refer the whole case to the court of appeal, and the case shall then be heard and determined by that court as in the case of an appeal by a person convicted; and
- (c) at any time, if the Minister of Justice desires the assistance of the court of appeal on any point arising in the case with a view to the determination of the petition, he may refer that point to the court of appeal for its opinion thereon, and that court shall consider the point so referred and furnish the Minister of Justice its opinion thereon accordingly."

All which is respectfully submitted.

The said Report was then read by the Clerk, as follows:—

THE SENATE,

COMMITTEE ROOM No. 368,

WEDNESDAY, 27th JUNE, 1923.

The Special Committee to whom was referred the following Bills, viz:—

No. 203, An Act in respect of The Returned Soldiers' Insurance Act,

No. 204, An Act to amend The Department of Soldiers' Civil Re-establishment Act,

No. 205, An Act to amend the Pension Act, beg leave to make their Second and Final Report as follows:—

1. These Bills involve the consideration of (a) the principles heretofore adopted by Parliament as the basis upon which pensionable rights, or benefits are to be recognized and governed, and (b) the changes, if any, which should be made in the existing law with regard to pensions or other benefits to soldiers or their dependants, including the creation of appeal tribunals and (c) the additional charges on the public treasury which such changes would involve.

2. Bill 205 is being generally treated by the press and by the returned soldiers' organizations as embodying the recommendations of both the Minister of Soldiers' Civil Re-establishment and of the Royal Commission on Pensions, which is not the case. Out of 17 clauses there are no less than four important clauses upon which the Royal Commission have made no recommendation, and which were not included in the Bill as introduced by the Minister. We refer specially to subsection 2 of clause 2 and to clauses 15, 16 and 17 of the Bill which will be dealt with later in this report.

3. Your Committee has given full hearing to all parties who desired to give evidence and they were given the opportunity of exchanging their views and criticisms in writing. A number of written statements including a summary history of pensions payable under the law were filed which will be found in

appendices "A" to "J" inclusive. An examination of the summary just referred to will show that for an average family in 1914-15 a totally disabled man, wife and three children received \$27.50 a month; in 1915-16, \$37.00; in 1916-17, \$58.00; in 1917-18, \$82.00; in 1919, \$88.00; in 1920, \$105.00; in 1920-23, \$137.00. Thus the pension for 1920-23 for a family of five is approximately five times as much as it was when the war begun, and two and one-half times as much as it was in 1916-17.

The pension for the widow has been increased in almost the same proportion. In 1915-16 a widow and three children were entitled to \$37.00 a month; in 1916-17, to \$50.00; in 1917-19, \$64.00; in 1920, \$81.00; and in 1921-23, \$97.00.

If a soldier or sailor is totally disabled and also totally helpless he may draw \$750.00 a year in addition to any other pension which he may have.

Your Committee was also furnished the following statement of comparative scales of pensions paid to members of the forces and their dependants in Canada and other countries.

*No pension payable for children subsequent to fourth.

4. Paragraph (a) of subsection (1) of section 3 of the Bill extends the right to pension to dependants of soldiers who suffered disability during service but not attributable to service as the following example will illustrate.

(a) A man on leave in London is injured in a street accident. His injury occurred on service and is not attributable to service. The man himself is pensioned for disability, but his dependants are not pensioned in the event of his death as the result of this disability.

In this case the injury or disability was not due to military service. Nevertheless as the law now stands soldiers thus injured or disabled receive a pension but when they die their dependants do not. The Bill as presented provides that in future all such dependants should have pensionable rights.

Your Committee considers that it would not be justified to recommend the adoption of the said paragraph for the following reasons:—

(1) From the evidence submitted your Committee ascertained that either by statute or through administrative practice Great Britain, the United States, Australia and other countries grant pensions to soldiers who were disabled *during service* even when such disability was not actually *attributable to service*. This is the law now in force in Canada and it is not suggested it should be changed. When, however, your Committee endeavoured to ascertain the law and practice of other countries in reference to the extension of pensionable rights to the dependants of soldiers whose injuries were not attributable to service, the greatest difficulty was experienced in obtaining any clear-cut evidence.

(2) While evidence was submitted to the Royal Commission on Pensions that in Great Britain, the United States and some other countries their pension laws are interpreted and administered so as to provide pensions to this class of dependants in certain cases under regulations that are referred to as being sufficiently elastic for the purpose, nevertheless your Committee believe that before any decision is reached on this point the various problems involved should receive further and fuller investigation. In particular it is desirable that exact and reliable information should be obtained as to the adoption of this principle by other countries and if and to what extent it should be made applicable in Canada.

(3) From a memorandum submitted by the Board of Pension Commissioners (see Appendix E) it would appear that if the section under consideration is adopted there would be payable immediately to the dependants of this class of soldiers who have died the sum of \$450,000. It is further estimated that an additional sum of \$100,000 would be required to meet pensions of this nature during the fiscal year 1923-24.

As for future payments on this account the Board is of the opinion the amount would increase annually for a period of from 20 to 25 years and that thereafter such payments would be reduced. The figures submitted to us indicate an expenditure of \$1,000,000 in the tenth year, \$2,000,000 in the twentieth year, and an approximate total of \$32,000,000 in twenty-five years from September 1, 1920.

While these figures are but an estimate and while their accuracy may be attacked, your Committee is of the view that they are approximately correct. In any event it is agreed that this additional burden should not be placed upon the public treasury until the further inquiry suggested in paragraph (2) above is carried out.

Your Committee therefore suggests that clause 3 of the Bill be amended as in the accompanying Bill.

5. Referring again to subsection (2) of clause 2 and to clauses 15, 16 and 17, here is what the Chairman of the Royal Commission said before the Committee on these clauses:—

“HON. MR. CALDER: It has been stated that there are two or three sections in the Bill that were not dealt with by your Commission at all.

“COL. RALSTON: I have just learned of this this morning. It is an addition, I understand.

“HON. MR. CALDER: Subsection 2 of section 2.

“COL. RALSTON: I have not seen that before.

“HON. SIR JAMES LOUGHEED: Then, the three last sections, 15, 16 and 17.

“COL. RALSTON: No. I have not seen any of them either.

"Hon. Mr. CALDER: In the telegram it is stated that this Bill was based upon the Report, and carried into law the suggestions of the Ralston Commission.

"Hon Sir James LOUGHEED: Yes.

"Hon. Mr. CALDER: Col. Ralston suggests that in so far as subsection 2 of section 2 is concerned, it is not.

"Col. RALSTON: I did not see that.

"Sir James LOUGHEED: They are new to you.

"Col RALSTON: Yes, I have not seen them before. I just wanted to see what the effect of them was, to see if they were dealt with by the Commission. The report of the Commission will show that; but those three sections I have not seen before.

"Hon. Sir James LOUGHEED: Your evidence corresponds with what has already been stated before the Committee with regard to these four sections."

Your Committee is of opinion that these clauses were introduced primarily by members of the House of Commons to cover individual cases, that their adoption would open the door to a large number of cases as to which no provision should be made, and that such individual cases may be reasonably taken care of by the adoption of the following clause:—

"Any individual case which in the opinion of the majority of the members of the Pension Board and the Appeal Board acting jointly appears to be especially meritorious and for which in said opinion no provision has been made in this Act, because such case did not form part of any class of case, such meritorious case may be made the subject of an investigation and adjudication by way of compassionate pension or allowance irrespective of any schedule to this Act."

6. Another main object of Bill 205, is the appointment of a District Review Board for each of the nine districts of the Department of Soldiers' Civil Re-establishment, consisting of three members, and in addition a Federal Appeal Board consisting also of three members.

7. From Appendix "C" hereto the estimated additional charge upon the public treasury by the creation of nine District Review Boards as above is \$475,496.00 per year. The result would be that moneys which should be spent upon the ex-member of the forces and his dependents would be spent upon a costly machinery which would not confer a commensurate benefit upon him.

8. Apart from any unnecessary increased expenditure, your Committee is of the opinion that the multiplicity of Review or Appeal Boards, as above mentioned, would not make for uniformity of treatment of beneficiaries; that it would unnecessarily duplicate appeals and that one central Appeal Board or Tribunal would better meet the situation.

Your Committee desires to call attention to the following portion of the evidence of Mr. J. R. Bowler representing the Veterans' Organizations as Counsel at Winnipeg, on the 15th of March last:—

"From the point of view of the ex-service men, a District Appeal Board whose decision shall be binding upon the Board of Pension Commissioners is the most desirable. That I can say safely as a result of my contact with men who have complained. They feel that if they could get a District Appeal Board from time to time they could give proper expression to their complaints and that they would be satisfied to abide by the decision of that Board. I think I can safely say that that is the general opinion. It is fully realized, however, that a scheme of this character would involve the setting-up of numerous separate Tribunals, and that the cost of maintaining them, together with the difficulty of securing and maintaining uniformity of practice and procedure, are formidable obstacles. On the other hand, the ex-service man has serious objections to the 'Travelling Board'. He wants to have access to a Board or a

body upon which there would be district representation and where there is no possibility of any official bias which might be the case if the entire Appeal Board were situated in Ottawa, or which the men feel might be the case.

"In the suggestion I have to offer in regard to the Appeal Board, I want to make it clear that I am not by any means at all claiming that it offers an ideal solution. We have given a great deal of thought to the matter, and it is an extremely difficult matter to draft any form of procedure which is going to meet all the objections which can be raised both on the side of the men and of the Government of the country. The scheme which we had originally drafted, and which I will next outline to you, is one which after perusing the report of your sittings at other points in the Dominion, we feel is somewhat deficient. I would like to make it clear that in any suggestions I have to offer I do so realizing the difficulty of the problem, not hoping that you will adopt the scheme which we bring out, but that there may be points in it which will be useful to you in your ultimate attempt to solve the problem.

"The CHAIRMAN: We are not married to anything in the way of a scheme.

"Mr. BOWLER: The first suggestion which we have outlined is as follows:

"That there be an appointment created entitled "Chairman of Pension Appeals" whose headquarters shall be in the City of Ottawa. That such Chairman shall travel from time to time to the various centres in Canada for the purpose of hearing and deciding pension appeals in the following manner:

"1. In each centre he shall form an Appeal Board consisting of himself as Chairman and two other responsible citizens of the Province in which the Board is to be held, both of whom shall be non-governmental officials and both of whom shall be returned soldiers.

"2. That the personnel of the Board, including the Chairman, shall be as follows:—

"One member of the legal profession;

"One member of the medical profession; and

"One member having knowledge of industrial conditions.

"That such Board shall then proceed to hear and decide all cases set down for appeal.

"That all evidence shall be taken on oath. That all documents and records shall be produced and fully disclosed to all parties; and that the Board shall have the power to subpoena all necessary witnesses. That the appellant may appear in person and may be represented by advocate if he so desires.

"That the decision of such Board shall be binding upon the Board of Pension Commissioners.

"That the persons appointed to the Board, with the exception of the Chairman, shall be appointed for only so long as may be necessary to decide the appeals in each district.

"We realize that this scheme is open to the objection that much delay would occur before the accumulated cases throughout the Dominion could be disposed of. This Committee believes that there is an abnormal condition existing at the present time, and that some special additional provision may be necessary for a brief period. For this purpose, it suggests that for the period of one year, three Chairmen of Appeals be appointed, each to function as heretofore set out in an allotted district in the Dominion. It is believed that at the expiration of this period the number of appeals would be so reduced as to then permit the operation of the Board as suggested, under one Chairman.

"While fully realizing that no scheme can be declared perfect until it has withstood the test of practical operation, this Committee believes that the suggestion outlined is fundamentally in accord with the existing need, and that it will meet the objection of the ex-service men to the Travelling Board without provin-

cial representation, and, at the same time, will not incur the creation of a multiplicity of permanent Provincial Appeal Boards. Uniformity of practice and procedure will be secured by the presence of the Chairman on each Board.

"It is believed, too, that the creation of an accessible Appeal Board will mitigate it itself against the necessity for appeals. The possibility of review and reversal of decision will undoubtedly tend towards greater care and consideration in the first instance."

Your Committee, therefore, recommend that Section 9 of the Bill be struck out and that section 10 of the Bill be amended to provide for:—

(1) The appointment of not less than five nor more than seven members to the Federal Appeal Board.

(2) The chairman to hold office during pleasure, half the remaining members to be appointed for two years and the other for three years.

The Committee are of opinion that with the passing of time the work of the Board will diminish and that fewer members will be required. Indeed your Committee think that if appeals are confined to the class of cases hereinafter referred to, the work of the Board will in three years' time be reduced to such an extent that the chairman alone will be able to cope with all the appeals that may arise.

(3) The Committee recommend that this Board shall have jurisdiction in cases of entitlement only. The question of entitlement is the larger question and is dealt with at considerable length in the report of the Royal Commission. There is the further question of the dissatisfaction in ratings of pensions after entitlement is admitted. The evidence laid before the Committee would seem to indicate that the question of rating is normally, if not wholly, a question of medical testimony. It is thought that if the Board of Appeal were to engage in discussing questions of rating it would seriously interfere with the work of the Board in determining questions of entitlement. Your Committee, therefore, think that it will be well to leave the matter of rating as it now is and confine the appeals to be brought before the Board of Appeal to the question of entitlement only.

(4) That members of the Board shall travel throughout the whole country and individually hear appeals and give decisions of the Board, following the practice of the Board of Railway Commissioners in this respect.

(5) That an appeal shall lie from such decision either at the instance of the ex-member of the forces or of the Board of Pension Commissioners to a quorum of the Board.

(6) The member of the Board whose decision is appealed from shall not be one of the members forming the quorum of the Board which hears such appeal.

(7) A majority of the members of the said Board should be ex-members of the forces.

In providing an appeal from decisions of the Board of Pension Commissioners in the first instance certain requirements are insisted upon by ex-members of the forces, which are more particularly set out in the report of the Royal Commission and in representations made by the Dominion Veterans' Alliance. They are as follows:—

(a) The right of personal appearance on the part of the ex-member of the forces.

(b) The elimination of delay.

(c) The convenience of the ex-member of the forces.

Those considerations were met by the proposed establishment of the District Review Boards. Your Committee feel that with a Federal Appeal Board as suggested the members thereof should be able to visit very part of the country, hearing appeals in precisely the same manner, with the same accessibility and

speed, and with the same right of personal appearance on the part of the ex-member of the forces as would have been the case had District Review Boards been constituted; that, in fact, the ex-member of the forces will not be prejudiced in any manner and on the other hand substantial saving of public money will be effected.

Your Committee are of the opinion that uniformity of procedure and decision are of the utmost importance. Through the medium of the secretariat of the Board and the deliberations of its members, this uniformity of procedure and decision will be secured.

Your Committee believe the Bill as amended will give effect to the above and to a very large extent carry out Mr. Bowler's suggestion.

BILL 203

9. As regards Bill 203—the evidence shows that applications for insurance by 71 returned men is involved. These applications have not as yet been granted, and at this date, thirty-five of the applicants have died.

Under the Bill presented to us for consideration provision is made for granting insurance to all the applicants which would entail an expenditure of \$125,000 in the case of those who are deceased, and an approximate future expenditure of \$108,500 upon the decease of those still living. At first sight it would appear that, owing to the causes that held up or postponed the consideration or granting of these applications, they should now all be approved. After going into the matter very carefully, however, your Committee finally concluded that there were special circumstances surrounding some of these applications that should be taken into consideration and that in addition an essential principle is involved that should not be overlooked.

From the evidence submitted your Committee is of the opinion that the chief purpose of the Insurance Act when passed was to provide insurance for returned men, the benefit of which would accrue to their immediate dependants such as wife, children, dependant parents, brothers or sisters. This to a large extent is indicated by the following sections of the original Act.

(4) The said payment shall be made to the wife, husband, child, grand-child, parent, brother or sister of the insured or such other person as may by regulation as hereinafter provided be declared to be entitled to become a beneficiary under the contract.

(5) If the insured is a married man, or a widower with a child or children, the contract shall be for the benefit of his wife, or of his children, or of some one or more of his children, or of his wife and some one or more of his children; and when the contract is effected for the benefit of more than one, the insured may apportion the insurance money among them as he deems fit.

(6) If the insured is an unmarried man or a widower without children, the insurance contract shall be for the benefit of his future wife, or of his future wife and children, and the insured may apportion the insurance money among them, as he deems fit; but if at his death he is still unmarried or is a widower without children the insurance money shall, subject to sections four and eleven of this Act, fall into and become part of the estate of the insured.

Notwithstanding these provisions the Minister of Finance was empowered to reject any application if in his judgment it should not be approved. This is clearly shown by the following sections:

" 13. The Minister may refuse to enter into an insurance contract in any case where there are in his opinion sufficient grounds for his refusing.

"15. No medical examination or other evidence of insurability shall be required in respect of any contract issued under this Act: Provided, however, that the Minister may, for the purpose of determining whether he shall refuse to enter into a contract of insurance, in any case under the provisions of section thirteen of this Act, require such medical examination or other evidence of insurability of the insured as he may deem necessary."

It should also be noted that the power to make the following regulation may also have some bearing on the question.

"17. The Governor in Council may, for the purposes of this Act, make regulations,—

"(j) determining the cases in which a dependant, other than the wife or child, of the insured may be named as a beneficiary under the contract."

Subsequently the Act was amended in 1922 to provide as follows:

"2. In the exercise of the powers conferred upon the Minister by sections thirteen and fifteen of the said Act, the Minister shall be governed by the provisions of the Schedule to this Act.

"Provided that applicants with or without pensionable disability who are so seriously ill that they have no expectancy of life, and who have dependants who are entitled to become beneficiaries under the contract as provided under the Act, shall be insurable under *The Returned Soldiers' Insurance Act* up to, and inclusive of 1st January, 1923.

In the working out of the Act prior to the adoption of the schedule as contained in the amendment of 1922, applications were received from persons who had no immediate dependants, the insurance money being payable on death to collateral relatives or others in no way dependent upon the applicant. Your Committee understand that a fairly large proportion of the 71 cases referred to are of this class and we recommend that the Bill should be amended so as to provide for a review of all these cases for the purpose of carrying out the provisions of the amendment of 1922, had it been in force at the time application was made.

The Bill as reported is intended to carry out this recommendation.

BILL 204

Bill 204 is reported with minor amendments consequent upon the amendments made to Bill 205.

To this Bill the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

"In His Majesty's name, His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency the Governor General was pleased to close the Second Session of the Fourteenth Parliament of the Dominion of Canada, with the following Speech:—

*Honourable Members of the Senate:**Members of the House of Commons:*

In bringing to a conclusion the work of the present session of parliament, I desire to express my gratification at the many useful and important measures which have been enacted.

The passing of the Bills respecting Treaties with France and Italy completes Canada's part in the desired commercial arrangements. Early completion on the part of the Governments of France and Italy and the exchange of ratifications necessary to give effect to the Treaties are confidently expected. It is anticipated that the operation of these Conventions will promote our trade and increase our good relations with these two nations, which were among our great allies in the late war.

The decennial revision of the Bank Act deservedly received careful attention at your hands. It is confidently hoped that the amendments made, in the light of experience, will, so far as legislation can, provide the safeguards required to ensure the efficiency of the banking system.

The changes made in the customs and excise laws will, it is believed, make for a simplification which is desirable and at the same time strengthen the financial position of the Dominion.

Pursuant to the recommendations of the Royal Commission appointed by the Government prior to the opening of the session, legislation has been enacted with respect to lake and river transportation which, it is hoped, will prevent the control of freight rates and insurance upon grain shipments such as has hitherto existed.

The whole subject of the handling and marketing of grain in Canada, and other matters incidental to the buying, selling and transportation of grain is being further investigated.

The Act to provide for the investigation of Combines, Monopolies, Trusts and Mergers will afford the public a much needed safeguard against possible undue enhancement of prices or unfair restrictions of trade.

Several legislative enactments in pursuance of the report of the Royal Commission on Pensions and Re-establishment have shown your desire to take every possible means of fulfilling just obligations towards the ex-service men, and their dependents.

An increasing immigration has been a significant feature of the present year. Agreements have been negotiated with the British Government for co-operation in an Assisted Passage Scheme; and closer co-operation has been effected between the Railways, Shipping Companies and the Department of Immigration and Colonization which, it is anticipated, will produce a large increase in the number of desirable settlers.

It is gratifying to note that the position of the Government railways has steadily improved, as the co-ordination of the national lines and facilities has become increasingly effective.

The important agricultural enactments of the session should prove of substantial service in the development of the fruit, live stock, grain and dairying industries of the country.

The revisions and amendments of the Acts respecting Patents of Invention, Trade Marks and Designs, Copyright, and Naturalization render these measures more effective and give to their provisions a wider international significance.

The approval given the treaty between His Majesty and the United States of America providing effective measures for the preservation of the halibut

fishery of the Northern Pacific Ocean, and the legislation incidental thereto, make possible the conservation of this great natural resource to the mutual benefit of our country and of our neighbour to the south.

Members of the House of Commons:

I thank you for the provision you have made for the public service.

Honourable Members of the Senate:

Members of the House of Commons:

The many evidences of a returning prosperity which, with the passing of the months, have become increasingly apparent, are now supplemented by the promise of a bountiful harvest. For these and other blessings I join with you in humble thanksgiving to Divine Providence.

His Honour the SPEAKER OF THE SENATE then said:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is HIS EXCELLENCY THE GOVERNOR GENERAL'S will and pleasure, that this Parliament be prorogued until Thursday, the 9th day of August next, to be here holden, and this Parliament is accordingly prorogued until Thursday, the 9th day of August next.
